

## F. Chiastic Structures

Although I have already documented an extensive list of sources on literary structures, I feel a need to specifically document the chiastic structures which I have used in my writings. While chiastic structures are just one category of literary parallelisms, they represent a high level of structure, and thus they have captivated LDS students of the Book of Mormon ever since John W. Welch first brought them to their attention. As a result, hundreds of chiastic structures for the Book of Mormon text have been proposed over the years. However, the criteria regarding the correctness of their structure has been a subject of debate (see Neal Rappleye, “Chiasmus Criteria in Review,” in *Chiasmus: The State of the Art*, edited by John W. Welch and Donald W. Parry, 2020, p. 289-309). Thus, I have had to use some discretion in choosing what to specifically incorporate into my structured text. Furthermore, because I have structured the complete text in a manner that emphasizes repetition in all its forms, many of the simpler chiastic forms have been incorporated into different larger parallelistic patterns. This “consistent” patterning has also required me to insert many larger illustrated chiastic forms that overlay these passages of text as “notes” after the passage or chapter has been completed.

While I have cited many various authors where appropriate, the list of chiastic structures that I have not included or cited from my main sources—for one good reason or another—is much more expansive, and worthy of documentation and illustration. However, this task is daunting. While John W. Welch has established a chiasmus archive website with an extensive collection of proposed chiastic structures from books, articles, letters, etc. (see <https://chiasmusresources.org>), many of the examples cited on that website are from materials housed in the L. Tom Perry Special Collections in the Harold B. Lee Library at Brigham Young University, and as such are restricted from illustration (and review). While I have previously listed in this Sources book the authors and sources pertinent to the Book of Mormon in Welch’s collection (see the end of Section B), at the present time none of the chiastic examples for the sources cited on Welch’s website for the Book of Mormon are illustrated on his website.

As a temporary solution, what I will do here is provide an expansive list of illustrated chiastic structures that CAN be accessed by the reader. In *A Covenant Record of Christ’s People*, I have primarily drawn my chiastic illustrations from four main authors. I have listed below the authors in the basic chronological order in which their works were published.

John W. Welch: “Chiasmus in the Book of Mormon,” *BYU Studies Quarterly*, 10/ 3 (1969): 69-83.

“A Study Relating Chiasmus in the Book of Mormon to Chiasmus in the Old Testament, Ugaritic Epics, Homer, and Selected Greek and Latin Authors,” Masters Thesis, BYU, May 1970, p. 115-154, p. 157-182. (Available in the Book of Mormon Central archive)

“Chiasmus in the Book of Mormon,” *New Era*, Feb. 1972, p. 6.

“Chiasmus in the Book of Mormon,” in *Chiasmus in Antiquity*, Provo, UT: Research Press, 1981, p. 198-210. (Only 4 new examples )

“Chiasmus in Helaman 6:7-13,” Provo, UT: FARMS, 1987. (Only 1 new example)

(Chiastic Structures)

Gregory Wright: *A Compilation of Large and Small Chiastic Structures in the Book of Mormon*, 1976-1979. (Unpublished but available in the Book of Mormon Central website archive.)

Donald W. Parry: *The Book of Mormon Text Reformatted according to Parallelistic Patterns*, Provo, UT: FARMS, 1992

*Poetic Parallelisms in the Book of Mormon: The Complete Text Reformatted*, Provo, UT: The Neal A. Maxwell Institute for Religious Scholarship, BYU, 2007. (A revised edition of the 1992 volume with better indexing but with the text content basically the same)

*Preserved in Translation: Hebrew and Other Ancient Literary Forms in the Book of Mormon*. Provo, UT: Brigham Young University, 2020.

*Book of Mormon Chiasmus: 292 Extraordinary Examples*, SLC: UT: Stonewell Press, 2021.

H. Clay Gorton: *A New Witness for Christ: Chiastic Structures in the Book of Mormon*, Bountiful, UT: Horizon Publishers, 1997.

In the pages that follow I have listed all the chiastic structures that are illustrated by these four authors in their publications, which amount to roughly 1600 proposed “testaments” to the amazing literary structure of the Book of Mormon. I have highlighted in yellow those examples which I have specifically structured and cited as chiastic parallels in my Volumes 1—7. Those examples that had been previously proposed prior to the author’s publication are marked with an asterisk.
