

## Sources

Note\* In the beginning of my research and publication I thought it beneficial to have a “Sources” section with each Introduction for each Volume of text. However, I have added so many citations that the number of pages precludes such an approach. Thus, the Sources section will be published as a separate “Sources” Volume. An outline or Table of Contents for that volume is as follows:

<u>Sources</u>	<u>Page</u>
<b>A. A Brief History of the Knowledge of the Literary Structures and Language of Ancient Scripture Up Until the Time of the Book of Mormon</b>	
<b>B. A Chronological List of English Reader-Friendly Sources on Hebrew-like Literary Language and Structures That Relate to the Book of Mormon</b>	
<b>C. A Chronological List of Pertinent Writings on Bible Quotations and Language That Are Part of the Book of Mormon</b>	
<b>D. A Chronological List of Pertinent Writings on Ancient Hebrew Law That Are Part of the Book of Mormon</b>	
<b>E. A Chronological List of Pertinent Writings on Author Attribution Parallels and Stylometry As They Relate to the Book of Mormon</b>	
<b>F. Chiastic Structures</b>	
<b>G. An Accumulation of Additional Sources Yet to Be Integrated</b>
